Maya /3DS Max  
Microsoft Office  
Wagtail

## PROFILE

Ambitious, charismatic, hardworking, passionate are a few of the words that I would describe myself being when it comes to Graphic Design. I aim to make timeless simplistic designs that are visually stimulating and leave a lasting impression on the viewer. I come from a 3D background which allows me to incorporate it into my designs. As well as working independently I thrive on the opportunity of working in a team to capture the imagination of the user in a digital medium.

## EDUCATION

	<b>Computer Graphic Technology</b> Bachelors Science 2:2 Kingston University	2008-2011
	<b>A-Level</b> ICT- B, Business- C Kelsey Park Secondary School	2006-2008
	<b>GCSE A-C</b> Eng- Maths- Sci- Media Kelsey Park Secondary School	2001-2006

## Experience

	<b>Karma Creative</b> A design consultancy producing creative solutions working with clients such as Global Merchandise, Olly Murs, One Direction and many more. My role as a designer is to create high end designs ranging from logos, flyers, web content, including designs for band merchandise that are featured on garments and accessories. The role requires me to work on various projects simultaneously, so it is essential for me to prioritise my work whilst also keeping up good communication with the client, informing them on what stage of completion we are at and also showing visual representation of what it looks like, should the client want to make tweaks to the design in real-time. Projects are also prepared for print and sent to the printing company which we work closely with allowing me to have best knowledge of paper quality and printing finishes to advise the client.	07/17-11/2017
	<b>Unrattled- Strategic Branding</b> (Internship) Brought in on a temporary basis to work on a charity magazine. Design work involved basic templates, photo editing and page layouts before populating with content provided by the client, making sure to proof read the copy write.	05/17-07/17
	<b>Freelance Designer</b> As a freelance designer I have the luxury of working for a range of different clients. From Fitness personnel to small businesses, helping to brand/rebrand them. Creating logos, promotional flyers, business cards and website content.	2013-05/17
	<b>VyomWork</b> IT, HR and Management Solutions Company required me to work on various projects for their clients spanning from photo-editing, logo designing, flyers, rebranding, and web components: favicon, landing screen graphics. Initially this started as an internship during University and now I'm listed as a freelance Graphic Design consultant.	09/2009 - 2013-2016
	<b>Good Development</b> (1 month Internship) Reformatting of files, retouching, chopping and cropping. passport/ driving license photos.	2007-2007
